https://zoom.us/webinar/register/WN_dUvkrEdIS3GOcX0jUGkTPg

One Health is the trans-disciplinary approach that works locally, regionally, nationally, and globally to attain optimal well-being for **people and society**, the **environment** and **plants and animals**. Together, the three major components make up the **One Health triad**, and the well-being of each is inextricably linked to the others in the triad.

DelVal—Providing knowledge and experience to tackle the most important issues of our time
