MESSAGE FROM THE ADVISORY COMMITTEE

Welcome returning and prospective new national and international members of CLR! Continuing lifelong learning and maintaining social interaction is now more important than ever! Over this past spring, we had over 480 CLR members successfully participate in our exciting Spring 2022 CLR Online Program. The online program enables our CLR community to learn new technology for staying connected, share ideas with interesting people far and wide, [learn about varied topics](#) each term, and [virtually tour museums](#)! This spring term brings even more opportunities to keep active and become involved. Online learning has become a great experience, with CLR staff and volunteers available to help everyone enjoy the program regardless of past comfort level with technology. We look forward to having you join us online this spring!

100 All-Levels Vinyasa Flow Yoga
Mondays, 9:25-10:40am | Summer II

This is an All-Levels Vinyasa Flow Yoga class. Vinyasa is a style of yoga in which the practitioner moves seamlessly from one pose to the next, guided by the breath. The class will begin with a short centering and breathing sequence and meditation, followed by a warm-up sequence and then a series of standing poses, hip openers, backbends, twists and forward folds. The class will conclude with inversions, a cool down and a closing sequence. Modifications will be offered for all poses to accommodate students of all levels and abilities. Members should have a mat and yoga blocks handy for class; bolster optional.

MARY LOU DAHMS is a Yoga Alliance certified RYT-200 Yoga Teacher and enjoys the peace and tranquility, as well as the strength and flexibility, that her yoga practice brings her each day. She enjoys sharing her practice with others and has been practicing yoga over the past 20 years. She also spent four years as a student at the School of the Pennsylvania Ballet Company, and was a member of the University of Pennsylvania dance troupe as an undergraduate. In addition to her RYT-200 certification from Yoga Alliance, she has an undergraduate degree cum laude in English, an MBA in marketing and an NJ CEAS in English and Elementary Education. She is interested in accessibility to clean water as a major global issue from her time working at The Watershed Institute and also works to support grassroots efforts and government policies designed to serve all people fairly and equally.

101 Fishes of Pennsylvania (Seminar)

Monday, July 18 | 9:25-11:25am

What makes a fish a “native” fish? When is a bass not actually a bass? Pennsylvania Fish & Boat Commission Outreach Coordinator will share some interesting information about the different fishes that live in the Keystone State. We will take a little slideshow tour of the different fish that the PA Fish & Boat Commission protects. *Please note that this course is a seminar course and will meet once in the Summer II term on Monday, July 18*

ANDREW DESKO has worked for the PA Fish & Boat Commission for 12 years in the Outreach Department for the Southeast Region of Pennsylvania. Prior to working for PFBC, he spent a short time working for PA State Parks and for the Pocono Environmental Education Center. He is a graduate of Slippery Rock University and Butler County Community College. The PA Fish & Boat Commission is the State Agency that protects, conserves & enhances the aquatic resources of the Commonwealth, and we provide fishing & boating opportunities.

103 The Fall of the Roman Republic

Mondays, 10:50am-12:05pm | Summer

In 122 BCE, the Roman Republic had stood for four centuries and had absolute control over the lands bordering the Mediterranean and what is now Spain and France. It had exhibited a

cohesiveness and self-assurance, which no modern nation could hope to achieve. Yet within a single lifetime, the Republic was wrecked by five civil wars and yielded popular sovereignty to five centuries of Imperial rule. Since the government of the United States was consciously and explicitly based on the Republic, the detailed history of which was known to every lawmaker in the new nation, its fate resonates even today. As Twain said, "History may not repeat itself, but it tends to rhyme."

GREGORY TAYLOR holds a B.A. in English, 1968, from the University of Virginia, Juris Doctor, 1971, from Boston University School of Law, specializing in constitutional and international law. Law Review, 1969-71. Forty years practicing securities law at self-regulatory bodies, Morgan Stanley, Merrill Lynch, Shearson Lehman Brothers and J.P. Morgan. Gregory began a vocational interest in Late Roman Republic (122-44 BCE) in 2007 and has since read intensely in the subject, including virtually all English-language books on the subject in print and important works out of print.

Kohler Farm has 10 greenhouses where every kind of flower you can think of is grown. The farm also grows various vegetables as well as cut flowers, hay,

and straw. Kohler Farm also has a retail store and garden center where grown produce is sold to the public.

WHAT ARE CLR MEMBERS' THOUGHTS ABOUT THE ONLINE EXPERIENCE?

"This is my first semester as a CLR member and I feel like I've unearthed a treasure trove of fun and learning!"

~Susan Cerbone, CLR member

"Thank you for all of the JOY CLR has brought us! We cannot thank DVU CLR enough. All the classes have been marvelous!! The instructors are all engaging, informative and present their passions in a way that captures the essence of each subject matter. OUTSTANDING! Mere words could never adequately describe the positive experience DVU CLR has been for us! Thank you to all who contribute to make this such an outstanding program. We want to be members forever!"

~The Stoppers, CLR members

"We are ALL IN! There are so many classes to choose from. We try to tell everyone how much fun it is!"

~Brooke & Ron Foley, CLR Members

"Nothing comes in the way of me and my CLR online classes!"

~Cheryll Dearborn, CLR member

"Easy-to-understand technology has provided a bridge to learning and socializing that otherwise would have been sacrificed. CLR has been a lifeline! With tech help readily available anyone can join in. Online classes afford a higher degree of participation through a more relaxed atmosphere and enthusiasm for socialization. Instructors and tech support volunteers ensure a smooth experience."

~Larry Lefkowitz, CLR Instructor

"Virtual classes for me weren't significantly different from classes given on-site. The added bonus is that I can take them while wearing my PJs, so long as I don't turn on the video!"

~Elizabeth Steele, CLR Instructor

"The great organizational skills, leadership skills, and coordination of efforts of the CLR program was also a highlight. Some said that the classes were 'an oasis of light in this time of social distancing.' This is a very positive learning experience for all of us. We are learning the courses in a safe, and engaging virtual academic and social environment. And, similarly to in person classes, we are participating, chatting, and talking in a very dynamic manner. And, as a bonus, we have learned to use and enjoy an internet tool that we may not have used otherwise. This has been a terrific experience!"

~Ana Maria Fernandez, CLR Instructor

108 Watching Upstream Great Finds-Summer Edition

Mondays, 1:40-2:55pm | Summer I

This course will focus on summer-themed great finds I have watched on the various streaming services and cable, and we will have interactive discussions. Each class will focus on a particular genre or category: an example could be: 1) foreign films 2) independent films 3) domestic series 4) Foreign series 5) comedy series 6) cooking and other shows. I will ask class members to discuss their favorites as well. I will provide clips, synopses, etc.

LOUISE PULINI has recently retired from a career in proposal management. Her life-long hobby has been putting together lists of films for family and friends. She has also been involved with film societies and attended film festivals around the world. Louise is always searching for new and interesting content. This course will focus on finding gems (i.e. documentaries, foreign and independent films and series) through the various streaming services now available as well as on cable.

109 Gardening Fundamentals Continued...

Mondays, 1:40-2:55pm | Summer I

Do you envy the "green thumb" of your neighbor? This course is an introduction to the fun and art of gardening for beginners. We will cover topics such as plant selection and placement, including deer-resistant plants, how to maintain what you have planted, designing for continuous blooms, and the very basics of soil, water and sun as the keys to success. We will also discuss how to divide your perennials and plant/shrub combinations. One half of each class will be lecture and the other half a question and answer period.

JANICE JACOBS, a gardener for over 40 years, has successfully developed her own perennials beds in the mountains of Colorado, the humid climate of the south, and the mild climates of Pennsylvania and Ohio. Once a Master Gardener, she is the prior owner and operator of JJGardens, a design, install and maintenance landscape company specializing in shade beds and perennial garden design. She attended the Horticulture Technology Program of an Ohio Community College and completed the course requirements for the Master Gardening Certificate in Ohio in the 1980's. Janice is a retired attorney and former federal government employee who recently located from Virginia to enjoy the fertile gardening potential in the Delaware River Valley.

200 Pathway to the Italian Renaissance: The Legacy of the Art of Giotto (Seminar)

Tuesday, June 7 | 9:25am-10:40am

When most people think of the Italian Renaissance, they envision the works of the great masters of the 15th C High Renaissance, painters like Leonardo da Vinci, Michelangelo di Buonarroti, and Raphael. Ever wonder who paved the way for their achievements? Ever curious about the artists who preceded them and most influenced their works? In this seminar, we will explore the achievements of Giotto di Bondone, known as "Giotto" (1267-1337), a Florentine painter and architect of the late Middle Ages. A true genius of painting, Giotto introduced innovations in color, style and narrative that influenced painters for generations. Considered a master of the late Gothic and Proto-Renaissance period, a contemporary chronicler called Giotto, "...the most sovereign master of painting in his time, who drew all his figures and their posture according to nature..."

Take a virtual trip to Medieval Italy as we explore some of the most beautiful Churches in Florence and Padua. Join us in examining the beautiful, innovative and powerful artistic works of Giotto, as we explore their influence on western art, and relish his greatest achievements. *Please note that this course is a seminar course and will meet once in the Summer I term on Tuesday, June 7*

JAMES PAGLIARO is a lawyer and a retired Managing Partner of Morgan Lewis, a global business law firm. James was a trial lawyer for over 40 years, and is a Fellow of the American College of Trial Lawyers. He earned both BA and JD degrees, and is currently enrolled in a program for an MA in Art History. James is an active docent at the Philadelphia Museum of Art, and has given tours at the Art Museum for almost 20 years. James serves on the PMA's curatorial committees for European Paintings and Sculpture, European Decorative Arts, and the PMA's Conservation Committee. Since retiring from full time law practice, James has been an historical interpreter, tour guide, and Board Member of

Pennsbury Manor, the 17th century summer manor house of William Penn, the first Governor of Pennsylvania. In 2018, James was retained as an online Lecturer at the Florida Gulf Coast University providing courses on Art History for FGCU Academy students.

201 Raphael: The Forgotten Master of the Renaissance (Seminar)

Tuesday, June 14 | 9:25am-10:40am

When we think of the greatest artists of the High Renaissance in Italy, the names that immediately come to mind are the so-called “Big Three,” Leonardo da Vinci, Michelangelo and Raphael. Leonardo and Michelangelo attract throngs of visitors for special exhibitions and invoke passion in Art Historians. Raphael, if mentioned at all, is remembered chiefly as the painter of insipid religious pictures, without the creativity and human insight of Leonardo, or the heroic nudes and power of Michelangelo. Raphael’s works deserve to be revisited. Raphael was a painter of tremendous virtuosity and energy, wide ranging in his talents, and capable of absorbing and transforming the latest stylistic innovations. Take a journey back to Renaissance Italy as we visit Raphael’s home in Urbino, trace his journey to Florence, where he meets Leonardo, and finally, and travel with the artist to Rome, where he is employed by in decorating the Vatican, and producing some of the most sublime paintings in the world. Learn why European painters for generations defined the so-called “Grand Manner” of painting as originating in the works of Raphael. *Please note that this course is a seminar course and will meet once in the Summer I term on Tuesday, June 14*

202 Artemisia Gentileschi: Exploring the Female Mystique in Baroque Painting (Seminar)

Tuesday, June 21 | 9:25am-10:40am

In 2020, for the first time, the London National Gallery dedicated a major exhibition to a female artist. The accomplished Baroque painter Artemisia Gentileschi was described by BBC News as “...the Beyoncé of art history.” Also referred to as the “Queen Bee of Female Empowerment” by the pundits, this genius of the Baroque Era is finally getting the attention and acclaim her vast talents warrant. Join us as we explore the tumultuous life and greatest works of one of the most accomplished 17th Century artists, who was producing prodigious paintings by the age of 15, and was the first woman to become a member of the prestigious Academy of Design in Florence. Find out why her glorious, and dramatic paintings are often described as a reflection of her own tragic life experiences and a “thrill ride into vengeance.” *Please note that this course is a seminar course and will meet once in the Summer I term on Tuesday, June 21*

203 Commodore James Biddle: Naval Hero, Diplomat-A Life Well-Lived (Seminar)

Tuesday, June 28 | 10:00-11:00am

Commodore James Biddle, brother to the famous 19th Century banker Nicholas Biddle, served an adventurous life in the United States Navy for 48 years. During those years, he spent time in a Tripoli prison, exhibited tenacity and bravery during the War of 1812, arranged trade treaties with foreign countries and claimed land for the United States. He also spent years at a time away from his family. Biddle's life not only illustrates over a half-century of United States history in the Early Republic era, but also demonstrates his attachment to his family with gifts of objects from his travels, leaving a lasting legacy to be enjoyed by many who visit Andalusia. The seminar will include a glimpse of history and material culture that reflects the exciting life of Commodore Biddle. *Please note that this course is a seminar course and will meet once in the Summer I term on Tuesday, June 28*

CONNIE S. GRIFFITH HOUCHINS has served in a number of capacities at Andalusia Historic House, Gardens and Arboretum. As curator and archivist, and recently retiring after nine years as Executive Director, Connie has had the opportunity to delve deep into the history of Andalusia and its inhabitants. She has a BA and MA from Temple University and was in the inaugural group receiving a Certificate in Historic Preservation from Bucks County Community College where she first was introduced to Andalusia.

204 Start Writing About Your Life: The Best Hobby in the World

Tuesdays, 10:50am-12:05pm | Summer I

Turn your reminiscences into an invigorating hobby. Memoir writing groups and clubs offer you a unique way to turn ancient memories into an opportunity for self-expression and shared emotion. Whether you've always loved to write, or never even considered it before, memoir writing lets you develop new neurons and strengthen old ones. And through the lens of your story, you can gain a healthy, and even healing relationship with your own past.

JERRY WAXLER has written several books about writing, including "Memoir Revolution, Memoir Revolution: A Social Shift that Uses Your Story to Heal, Connect, and Inspire." He teaches memoir writing at Northampton Community College in Bethlehem PA and has a Master's degree in Counseling Psychology from Villanova.

WHAT ARE CLR MEMBERS' THOUGHTS ABOUT THE ONLINE EXPERIENCE?

"I look forward to getting the online brochure each term-it's like the *Sears Christmas Toy Catalogue*" for me!

~CLR Member

"I'll try it!" I thought and now I've converted from being a Luddite. I was amazed at what can be accomplished with the online courses with videos, PowerPoints, etc.-even more could be done than could be done in person!"

~Christine Komperda, CLR Member

"I had a genuinely splendid time teaching my course this summer via Zoom! What also helped tremendously was the flawless, rapid, empathetic and very professional technical support from the CLR team in preparing for and delivering my course! Thank you! I am ready for the semester!"

~David Tonkin, CLR Instructor

"Due to the current climate, instructors and members alike have had to adjust to a new education experience-that of teaching and attending classes online. Instructors had to adapt their course materials and teaching styles. Members had to figure out how to prepare their PCs and tablets for the best online experience possible. For all, this was a challenge we met head on and overcame! After several weeks of online instruction, the online experience has been successful. Using the Zoom Video Conferencing system, instructors share their presentations online for all to see, monitor chat activity to get feedback and questions during the class, and during interactive discussion everyone can see each other in Zoom's 'grid view'. Yes, it took time for instructors and members alike to feel comfortable with this new way of teaching/learning, but as the semester continues, it appears this 'new normal' for instruction during this climate is working well!"

~Glen Maxson, CLR Technical Support Aid, Advisory Committee Member

"I will always be grateful for the experience I am having by taking the virtual DelVal CLR online courses. Mary Mathews has provided knowledge and exciting aspects of art that exceed all of my expectations. Beginners to the more experienced art students are amazing with their participation and positive comments. Class is fun! I tell all my friends I am an Aggie for life!"

~Barbara Glushek-Hutt, CLR Member

205 Retirement Planning: Strategies for Today & Tomorrow (Seminar)

Tuesday, June 7 | 12:30-1:15pm

Retirement planning doesn't have to be daunting. Learn tips for determining if you are on track, and learn practical strategies to help you achieve retirement peace of mind. It's never too late to take charge of your financial future. *Please note that this course is a seminar course and will meet once in the Summer I term on Tuesday, June 7* [Note: The Center for Learning in Retirement at Delaware Valley University is not dealer/trader and our classes are for educational purposes only.]

207 World War I: The War to End All Wars

Tuesdays, 1:40-3:40pm | Summer I

World War I was one of the massive watersheds of 20th-century's geopolitical history. It led to the disintegration and collapse of four great imperial dynasties (Germany, Russia, Austria-Hungary, and Turkey), resulted in the Bolshevik Revolution in Russia, and the destabilization of an already precarious European and global society. This course will explore and examine the accounts of not only scholars and military leaders from the victors but of others as well in an effort to uncover a well-rounded overview.

DAVID WESLEY TONKIN has traversed the globe many times ... and has appreciatively gathered a rich tapestry of remarkable and matchless life-lessons, vivid memories, experiences and opinions. He is a retired Airborne Cavalry Officer who saw service in the South African-Cuban-Angolan Wars and as a UN peacekeeper in five African countries in the 1970's and 1980's. He has held entrepreneurial COO level and thought leader and strategic positions at global business training enterprises. In 2008, David was honored with the "Excellence and Innovation in Corporate Learning" Award at the 9th Annual Corporate University Awards. This highly coveted and prestigious global award is co-sponsored by The Wharton School of Business and Training Magazine. David's eclectic range of lectures, blogs and commentaries all benefit from his many years of global travel and the embracing of a rich collective of experiences and research to fuel his wide range of topical coverage.

300 All About Electric Bicycles! (Seminar)

Wednesday, June 15 | 9:25-10:40am

As we get older and our joints aren't working as well as they used to, we still need to get out in the great outdoors for exercise, and what better way to do that than on a bicycle (with a motor)?!. This single session class will update everyone on the current state of electric bicycle technology, e-bike choices and costs, and regulations you'll need to know before heading out to your favorite bike trails. *Please note that this course is a seminar course and will meet once in the Summer I term on Wednesday, June 15*

After graduating from Penn State in '77, GLEN MAXSON moved to Seattle and built Boeing's first corporate electronic directory. A move in '94 to Intel in California continued his career in information technology until retirement in 2011. Since moving to Doylestown, Glen has kept current with new technology choices and trends and has a passion for sharing what he knows and what he's learning with seniors.

301 Macroinvertebrates: Indicators of Water Quality on the Pennypack Creek (Seminar)

Wednesday, June 22 | 10:30-11:30am

The Pennypack Creek is the lifeblood of the Trust, providing resources and aquatic habitat for our flora and fauna and those downstream in the Delaware River watershed. However, much of the 22-mile Creek flows through residential and commercial areas, contaminating the water with road salts, fertilizer and other pollutants. Many riparian insects like mayflies and dragonflies have their larval stage in the water. These larvae are known as macroinvertebrates, and their species vary in their tolerance of water temperature, pollutants, salinity (conductivity) and nutrients--making them perfect indicators of water quality. With support from volunteers and interns, Research and Restoration Coordinator Maria Paula Mugnani inventories the macroinvertebrate diversity in the Creek and its major tributaries. Join Maria Paula as she discusses the macroinvertebrate research and its implications for watershed health. Maria Paula will also discuss volunteer opportunities at the Trust to support reforestation and water quality monitoring efforts. *Please note that this course is a seminar course and will meet once in the Summer I term on Wednesday, June 22*

MARIA PAULA MUGNANI'S expertise in botany and taxonomy has led her to become the Research and Restoration Coordinator at the Pennypack Ecological Restoration Trust where she leads the science research program and directs a team of over 50 volunteers to manage 600 acres of forest using various GIS mapping and data visualization tools. She has a Master's of Science degree in Wildlife Ecology and Conservation with a focus in plant ecology and ecosystem interactions. She is a field ecologist experienced in a variety of North American environments focusing on ecosystems community monitoring, stewardship planning and management, long-term data analysis, and public outreach. While at the National Ecological Observatory Network (NEON) in Gainesville, Florida, she led research on the long-term effects of climate change, land management, and invasives on plant, insect, and rodent communities.

302 North Penn Water Authority: A Virtual Tour (Seminar)

Wednesday, July 13 | 10:00-10:45am

Take a virtual tour through the Forest Park Water Treatment plant and get a behind the scenes look

at where drinking water from North Penn Water Authority starts, the process it goes through to purify it and how it is distributed to customers. *Please note that this course is a seminar course and will meet once in the Summer II term on Wednesday, July 13*

LINDSAY HUGHES is the Manager of Administration and Public Relations at North Penn Water Authority (NPWA) which is located in Lansdale, PA. NPWA is a municipally owned, non-profit Authority with a ten member Board of Directors. The most important duty of NPWA is to provide the public with a safe and reliable supply of drinking water. Its employees, many of whom are NPWA customers themselves, take pride in being able to provide this service to the community. What started out as a small water utility serving 7,000 customers in 7 municipalities has grown to one providing water to more than 35,000 customers in 20 municipalities. There have been many changes over the decades, but one thing remains the same: NPWA is committed to bringing our customers a safe, reliable, and economical water supply now and into the future.

303 Glencairn Museum: The Story of a Home (Seminar)

Wednesday, June 8 | 10:00-11:00am

Have you ever heard the phrase “a man’s house is his castle”? Well, Raymond and Mildred Pitcairn and their children lived in an actual castle in Bryn Athyn Pennsylvania from 1939 until 1979! Today the building serves as a museum of religious art showcasing collections from Medieval Europe, Ancient Egypt, Greece, Rome, and other cultures. This virtual presentation will use archival photography and video to take you back through the decades for a look at the life of the Pitcairn family home. You will learn about the creation of the castle from vision to reality. You will also see the many ways the Pitcairn family brought their castle-home to life through hosting family celebrations, political gatherings, school dances, concerts, and VIP visitors. *Please note that this course is a seminar course and will meet once in the Summer I term on Wednesday, June 8*

LEAH SMITH is the Visitor Experience Manager and Museum Educator at the Glencairn Museum located in Bryn Athyn, PA. Leah has worked at Glencairn Museum for over a decade. She appreciates the way the Pitcairns welcomed so many people into their home to marvel at the amazing architecture and share in many joyous celebrations.

304 Time for Slime! (Seminar)

305 Great British Cathedrals Part III

Wednesdays, 10:50am-12:05pm | Summer

Using Power Point, YouTube Videos, and Lecture we will look at nine more of the Great British Cathedrals: (Lincoln, Chester, St. Giles, Coventry, Armagh, Rochester, and Norwich). We will discuss the history of the British Cathedral in general as well as each of these Cathedrals on a case by case basis. And we’ll take a close look at the Architecture of each one as well. Many of these are old enough to be considered Medieval, yet all are active Cathedrals even now. Whether you’ve been in this class previously when we considered other Cathedrals in Britain or if this is your first time, you won’t be disappointed. There is much to learn and enjoy!

306 Introduction to Oceanography: A Dynamic Approach

Wednesdays, 10:50am-12:05pm | Summer I

We all love the shore, wave watching, the beach, contemplating the forces that shape the land, move the water and air and provide habitat for marine life. This five week course will consider the way the forces of nature gives rise to the waves and transfer the energy deep into the water to produce ocean currents, mix water, and ultimately provide food for ourselves and the animals living there. The ocean then pushes back on the atmosphere to begin the cycle again. This survey of

oceanography takes the dynamic wide field view of the marine system.

JOHN DEITZ is an active artist working in new media with a deep interest in what makes the natural world tick. His abiding interests embrace the large issues. He holds an undergraduate degree in Marine Science awarded by Southampton College, Long Island University. Work history includes a wide variety of fields, reflective of varied interest, most often with professional certification/ specialty training often coupled with teaching experience. He has taught diagnostic ultrasound , published articles in medical journals, contributed images and parts of textbooks and delivered specialty lectures across the country. After graduation from college he was welcomed back as adjunct staff for winter session programs in the British Virgin Islands teaching underwater photography. His photography has appeared in Audubon Books, The Underwater Photographer, Skin Diver Magazine, Sea Frontiers, and newspapers while living in south Florida and working in the everglades as an agricultural consultant and wastewater treatment plant operator. Leaving Florida he settled in Bucks County where he has thrived as a consulting/ teaching/scanning service owner (Diagraphics Systems Ltd.), and has owned and operated four businesses including Limited Diffraction Optics. He continues to design and build telescopes and observes with a collection of home built telescopes on an occasional basis. John's inquiring mind has keep him returning to a variety of studies.

308 Wordle Strategy: Take Your Game to 11! (Seminar)

Wednesday, June 15 | 12:15-1:30pm

This seminar will cover the basics of how to play Wordle, including a live demonstration of solving the Wordle of the day. We will then look into the brief history of the wildly popular word game before revealing some simple strategies to help you win every time (almost). For instance, did you know that there are nine four-vowel starter words that you can use? Or what words the NY Times thinks most people won't know – or are inappropriate for Wordle? *Please note that this course is a seminar course and will meet once in the Summer I term on Wednesday, June 15*

ROY ROSSER is a physicist (PhD, Imperial College, London), who while working at the Princeton Plasma Physics Laboratory invented the technology now used for placing the virtual 1st Down line on television broadcasts of football. After developing that technology through a startup, Princeton Video Image, he turning to intellectual property law, becoming a US registered patent agent and now helps other inventors obtain patents. However, as a young post doc researcher, he was also interested in data compression and, back in the early '80s, was hired as a consultant by the Mead Data Corporation (now Lexus-Nexus) to develop his proposals for using English word frequencies as a means of data compression. It was this old interest in word and letter frequencies that led him to examine strategies for solving Wordle.

~Thursday Classes

400 Cyber Security Safety: Recognizing and Avoiding Phishing & Hacking Attempts (Seminar)

Thursday, June 23 | 9:25-10:40am

Phishing attacks are one of the most common security challenges we face in keeping our information secure. Hackers use email, social media, phone calls, etc. to try to steal your data. This seminar will help you understand when phishing and hacking attempts are happening, how to minimize your exposure, and what to do if you have been scammed. *Please note that this course is a seminar course and will meet once in the Summer I term on Thursday, June 23*

After graduating from Penn State in '77, GLEN MAXSON moved to Seattle and built Boeing's first corporate electronic directory. A move in '94 to Intel in California continued his career in information technology until retirement in 2011. 401 Exploring the Birthplace of Mr. Peanut, Suffolk, Virginia (Seminar)

Thursday, July 28 | 10:00-11:00am

In this seminar, the history-laden town of Suffolk, Virginia will be explored, including its history as the birthplace of Mr. Peanut, the well-known famous Planter's Peanuts icon and mascot. *Please note that this course is a seminar course and will meet once in the Summer II term on Thursday, July 28*

KEVIN SARY is currently the Visitor Center Supervisor at the Suffolk Visitors' Center located in Suffolk, Virginia. He grew up in Edenton, N.C., which is a very historic small town and he's always loved history. He was a docent at the historic Newbold-White House in Hertford. He enjoys his current role because Suffolk is the fastest-growing city (in the area) and there are many historical places such as the Seaboard Station Railroad Museum and Riddick's Folly House Museum, Historic Obici House and the Planters Peanut Center. Even the place where the Visitors Center is, the Nansemond County Courthouse, is historic.

402 The History of Fairmount Waterworks (Seminar)

Thursday, June 2 | 10:30-11:30am

Learn about the novel design and operation of Fairmount Water Works in Philadelphia, the site of the nation's first successful municipal water supply system. We will discuss how the supply of clean, fresh water contributed to the growth of our young city, how land use changes over the decades contributed to changes in water quality and how stormwater runoff contributes to pollution in our waterways today. Find out about the innovative programs the Philadelphia Water Department has initiated to combat pollution in our rivers and explore what we all can do to become better stewards of our watershed. *Please note that this course is a seminar course and will meet once in the Summer I term on Thursday, June 2*

The Fairmount Water Works Interpretive Center (FWWIC) is the Philadelphia Water Department's (PWD) urban watershed environmental education center. FWWIC's proximity to the Schuylkill River in an urban setting supports its role as a living laboratory for water-based research, education, and interpretation. FWWIC's innovative projects and collaborations integrate art, history, and STEM subjects to promote clean water and a healthy river. The mission of FWWIC is to enhance stewardship of our shared water resources by encouraging informed decisions about the use of land and water.

403 From A to Z: Birds of the Delaware Canal (Seminar)

Thursday, July 7 | 10:50am-12:05pm

Over ninety species of birds can be found along the Delaware Canal as it runs 58.9-miles from Easton to Bristol, Pennsylvania. Look up in the sky, look across the hillsides, look along the towpath, look into the water, look down to the river. Birds are everywhere along the Delaware Canal. This seminar will feature the superb work of photographers Carole Mebus and Judy Greger. On an almost daily basis, both walk along the canal towpath catching shots of nature's wonders. This seminar will be a simple visual survey, not a thorough bird identification session. What there will be are magical photos that will pique your curiosity and put you on the lookout for the many types of birds – waterfowl, raptors, song birds, and more – that can be sighted along the Delaware Canal and River corridor and, perhaps, your own backyard. Join us for an avian adventure! *Please note that this course is a seminar course and will meet once in the Summer II term on Thursday, July 7*
The Friends of the Delaware Canal is an independent, not-for-profit organization working to restore, preserve, and improve the Delaware Canal and its surroundings. The organization's primary goals are to ensure that the Canal is fully watered from Easton to Bristol and that the towpath trail is useable over its entire length.

404 Life and Legacy of Pearl S Buck: A Woman Ahead of Her Time (Seminar)

NANCY MCELWEE taught for 35 years in the Central Buck School District in Doylestown. Two years after she retired to took a tour of Pearl Buck's home and was immediately hooked and greatly inspired by Miss Buck's legacy. She gives tours, manages the volunteer gift shop and recently served as President of the Pearl S Buck Volunteer Association.

405 Spit Spreads Death: The Influenza Pandemic of 1918-19 in Philadelphia (Seminar)

Thursday, June 16 | 1:30-2:30pm

The 1918-1919 influenza pandemic infected nearly one third of all humans on Earth and resulted in over 50 million deaths. The worst hit city in the United States was Philadelphia, where roughly 17,500 people died from the "Spanish flu." However, despite its significant impact on human history, many people have never heard of what some have called the "forgotten pandemic." This lesson will help people understand the history of the 1918-1919 influenza pandemic, the virus that caused it, the impact of World War I on spreading the disease, the scientific and public health response to the outbreak, and the ways the pandemic influenced present-day medical knowledge and responses to infectious disease. *Please note that this course is a seminar course and will meet once in the Summer I term on Thursday, June 16*

MARCY ENGLEMAN is the Senior Museum Educator at the Mütter Museum of The College of Physicians of Philadelphia. She is responsible for all dealings with the many groups that visit the museum each year, by teaching lessons and giving tours, as well as managing the Docents for the museum. Prior to her 13 years so far at the Mütter, Marcy worked in the education department at The Philadelphia Zoo. America's finest museum of medical history, the Mütter Museum displays its beautifully preserved collections of anatomical specimens, models, and medical instruments in a nineteenth-century "cabinet museum" setting. The goal of the Museum is to help visitors understand the mysteries and beauty of the human body and appreciate the history of diagnosis and treatment of disease.

406 Defeating Disease & the History of Vaccines (Seminar)

Thursday, July 21 | 1:30-2:30pm

While less than 200 years old, the idea that germs make people sick has revolutionized not only medicine but our daily lives, from getting shots at the doctor to washing our hands before we eat. In this talk, people will learn about the incredible, astonishing, and sometimes disgusting stories of the men and women who first fought germs and learned how to keep us healthy. The history of vaccines will be explored as well. *Please note that this course is a seminar course and will meet once in the Summer II term on Thursday, July 21*

407 The Fabled & Historic Trains of the World (Seminar)

Thursday, June 2 | 1:40-3:40pm

Train travel has over the decades cloaked itself with an aura of elegance, exhilaration, romance and a hint of intrigue. An abundance of our popular literature, movie and television fare has a train as a significant "character" in the plot line. There are 5 or 6 trains worthy of the appellation "fabled and historic." Two will be highlighted in this seminar and I have travelled twice on one of the trains. A friend has traveled often on another two of the trains. Which trains will be highlighted on this historical and delightful?! Join in to find out! *Please note that this course is a seminar course and will meet once in the Summer I term on Thursday, June 2*

DAVID WESLEY TONKIN has traversed the globe many times ... and has appreciatively gathered a rich tapestry of remarkable and matchless life-lessons, vivid memories, experiences and opinions. He is a retired Airborne Cavalry Officer who saw service in the South African-Cuban-Angolan Wars and as a UN peacekeeper in five African countries in the 1970's and 1980's. He has held entrepreneurial COO

level and thought leader and strategic positions at global business training enterprises. In 2008, David was honored with the “Excellence and Innovation in Corporate Learning” Award at the 9th Annual Corporate University Awards. This highly coveted and prestigious global award is co-sponsored by The Wharton School of Business and Training Magazine. David’s eclectic range of lectures, blogs and commentaries all benefit from his many years of global travel and the embracing of a rich collective of experiences and research to fuel his wide range of topical coverage.

CLR MEMBERSHIP AND CLASS REGISTRATION

Registration: \$90 per person for the Summer 2022 semester
(This fee entitles members to register for as many courses as they would like on a first-come, first-served basis that are available at the time of registration)

Check out this step-by-step [Online Registration Video Tutorial](#) to make sure that your registration goes smoothly!

STEP 1: PURCHASE MEMBERSHIP

Visit our [CLR Online Registration Store](#). (Please see below for full link if needed) Select the “CLR Summer 2022 Membership” product, click “add to cart,” and click “checkout.” ***Please note that the “CLR Summer 2022 Membership” product will not be available and not appear in the Online Store until online registration opens Monday, May 2 @ Noon (ET).***

STEP 2: SELECT COURSES

Now select the available courses you would like to register for that are listed under the Additional Items heading by clicking on the add to cart icons (see picture above) next to the respective courses you would like to register for. No action needed for the courses you do not want. Please do NOT alter the default quantity fields for any courses which are all set to “1.” Once you are finished making your selection, scroll down to the bottom and click “Continue.” Please note that if a course is full by the time that you register, it will no longer be listed under the Additional Items heading. Courses will be filled on a first-come, first-served basis and members may take as many courses as they’d like so long as seats are available. If you need to make changes to the items you’ve selected in your cart at any time, click the shopping cart icon at the top, right-hand side of the page and adjust as needed.

STEP 3: INPUT CONTACT INFORMATION, REVIEW ORDER, AND SUBMIT

Please complete all required remaining fields in the Buyer, Contact, & Payment information sections. Don’t forget to hit “Continue” after each section. You will then be prompted to enter your payment information. Click “Review Order” when finished, then click “Submit Order.” *You should receive via email EITHER one hybrid order confirmation receipt confirming both membership and your classes OR you should receive two separate confirmation receipts-one confirming your membership and another confirming your classes.* If you do not receive one hybrid order confirmation confirming both membership and your classes OR two confirmations one confirming membership and the second confirming your classes, this indicates that courses were not selected properly, so please contact us as soon as possible so that we can get you registered for your courses.

All registration requests submitted are final, and only one online registration form may be submitted per member. Changes to the courses you selected can only be accommodated during the drop/add period (May 17-19). More info regarding the drop/add process will be communicated via email. Membership Registration for the Summer 2022 Online Program is non-refundable.

SUMMER ONLINE PROGRAM FAQs

The summer CLR program and all courses will be conducted synchronously (i.e., following the already established and set day/time schedule) live online only. No courses will be held on-site.

What will I need if I am interested in taking online CLR courses this summer?

- A Computer
 - Desktop computer with speaker and microphone or with a headset (webcam-optional)
 - OR –
 - A laptop/tablet (most come with internal webcams and microphones)
- Note: accessing courses via a smart phone is not recommended for optimal experience, however, the Zoom app can be downloaded to a smart mobile device
- Internet Access
- No Zoom account, prior experience, or special software needed. The Zoom app is free and can be easily downloaded and run.
- Access to Email

How exactly will courses be conducted online?

Instructors have been given a one-time basic training by our IT Team in using the free online web conferencing app Zoom and briefed on how to securely conduct their classes. Please note that instructors have been trained in how to adjust their meeting settings so as to achieve maximum security. What's Zoom? [Check out this video](#) for a brief overview (third-party video; not affiliated with DelVal). Classes will have varying capacities. Instructors will be able to share their screens, present PowerPoints and videos, interact with members, and members will be able to interact with each other as well through the platform in live time via audio, chat, or via optional video (webcam). Members will be able to control at all times if they would like to be seen or not via video and control if they would like to be heard or not. Members are able to easily mute and unmute their microphones with the click of a button and are able to enable and disable their webcams, if applicable, at any time. Please note that most lap- tops come equipped with internal webcams and

internal microphones. No need to purchase any extra equipment unless you are using a desktop computer and do not have speakers and a microphone, a headset, or a webcam (only if you would like to be seen). Even if you do not have a webcam, you will still be able to see the instructor's presentation.

How will members access the courses?

Prior to the start of their courses, instructors will email their class members the following:

- Class-specific link to join their Zoom meeting
- Class Class-specific meeting ID
- By clicking on the link and inputting the meeting ID, members will be able to access the course(s). [Check out this video](#) for a sneak peek to see just how easy it is to join a Zoom Meeting (third-party video; not affiliated with DelVal).

Are there any resources that can help me with Zoom if I'm having trouble?

Yes. Prior to the start of the semester, registrants will be provided with a quick start guide which includes helpful video links to familiarize themselves with how to join Zoom meetings and how to navigate Zoom. Current Summer 2022 CLR members will also be invited to a Virtual Coffee Hour (May 11 with an invitation to follow) which will serve as an open forum for members to join instructors and fellow members and have their questions addressed prior to the start of the semester. Also, two large optional Zoom test runs will be conducted prior to the start of the term and each instructor will conduct a brief test run 15min immediately prior to the start of their first classes to ensure that everything runs smoothly prior to the start of the term and first class. If issues arise during a Zoom test run, members are to contact their instructors directly to describe the issue. Instructors will collaborate with our volunteer troubleshooting aids to help resolve any technical issues. These troubleshooting aids are volunteer CLR members who have extensive career backgrounds and experience in technology and online teaching and learning.

Please note: The University's IT Team will NOT be available to assist CLR with troubleshooting issues should any arise due to the University's high demand of needs at this time. CLR members and instructors will not be permitted to contact the University's IT Team.
