

Animal Health Compliance Form

Delaware Valley University permits students to reside in campus housing with an animal with prior approval in limited and specific circumstances. Students requesting to reside with an animal are required to agree to a statement of expectations, which includes an agreement to keep the animal in good health. Specifically, for **cats, dogs, ferrets, and rats**, this includes staying current on all recommended vaccinations, staying free from communicable disease, and being checked regularly.

Students requesting to reside with a cat, dog, ferret, or rat on campus are required to provide documentation from their veterinarian of the current health status of the animal. **This form is not a request to reside on campus with an animal.** Students can find more detailed information and access the formal request form at www.delval.edu/disabilities.

Once complete, mail, fax, or email completed form and supporting documentation to:

Kelly Hojnacki
Delaware Valley University
700 East Butler Avenue
Doylestown, PA 18901

FAX: 215-489-2344
kelly.hojnacki@delval.edu
