THE AMAZING COMPUTER CHIP

ONLINE 100 S1

MONDAYS, 9:25 A.M.-10:40 A.M.

Everyone hears about computer chips, their ubiquity, and their shortage, but very few people actually understand how magical the chip really is. In this one-session seminar, you will learn about the most extraordinary technology that has dramatically changed the world. Are you ready to plug in?

OCEANOGRAPHY-A DYNAMIC APPROACH

ONLINE 101 S1

MONDAYS, 10:50 A.M.-12:05 P.M.

Why Dynamic? Because this is all about the mysteries of moving water! Ocean water never stands still, and seems to move chaotically. Yet, there is an extraordinary pattern to this motion, a pattern that circles the globe without rest, resulting in a single world system of circulation. Moreover, there are patterns within the patterns within patterns! "Little fleas have littler fleas."

We all love the shore-wave watching, the beach, contemplating the forces that shape the land and move the water and air and provide habitat for marine life. This course will consider the way in which these forces of nature give rise to the waves and tides which then transfer the energy deep into the water so as to produce ocean currents, mix water, and ultimately provide food for ourselves and aquatic and marine organisms.

Here you will encounter planet earth, perhaps for the first time! Our planet is a water planet with more than 90% of the inhabitable VOLUME being cold, dark and salty. We will travel the ocean conveyor belt and see how the physical environment determines the biological environment of the globe.

THE HISTORY OF THE FALLSINGTON BOARDING SCHOOL SAMPLERS

ONLINE 102 S1

MONDAYS, 1:40 P.M.- 2:30 P.M.

Samplers were part of every young girl's education in the 18th and 19th centuries. Not only did they teach an important skill, sewing, that every woman used in her daily life, but the completed sampler demonstrated a young woman's readiness for marriage. Learn about the small number of samplers produced, and in their origins. at the Fallsington Boarding School in Fallsington, Bucks County.

MORAVIAN POTTERY AND TILE WORKS: A WORKING HISTORY MUSEUM TOUR

ONLINE 201 S1

TUESDAYS, 10:50 A.M.-11:40 A.M.

Dive into the world of Mercer. Explore the concrete building and historic workshops that lay throughout the grounds. Watch our craftsmen as they turn wild Bucks county clay into Mercer tiles. America's Tile Maker Since 1898. Between 1911 and 1912, Henry Chapman Mercer (1856-1930) built a National Historic Landmark, the Moravian Pottery and Tile Works to, "master the potter's art and establish pottery under personal control." Mercer's work expressed the ideals of the American Arts and Crafts Movement, and was sought out by leading architects and taste-makers to decorate public and private buildings across the country. Today, artisans continue to master the tile maker's craft, promoting Mercer's ceramic traditions using local clay and his historic designs. Tile Works offers tours, classes and workshops that inspire making, empower learning and nurture creativity.

MICROSOFT WINDOWS BASIC OPERATIONS

ONLINE 204 S1

TUESDAYS, 12:15 P.M.-1:05 P.M.

Many who use Windows need help with basic operations. Often people are shy about asking for assistance because these are fundamental tasks that they were never taught to perform. These include naming/renaming a file, moving/copying/deleting a file; making/finding folders, adjusting the size of windows, finding files, and many other operations we take for granted until we need to use them. This course will touch on all of these subjects and more, and no question is too trivial.

THE RIVER THAMES

ONLINE 300 S1

WEDNESDAYS, 9:25 A.M.-10:15 A.M.

This second part of the course on the River Thames will continue eastward from London as if walking on the Thames Path stopping at points of interest along the way such as Lambeth Palace, Parliament, St. Pauls Cathedral, Tower of London, the Great Fire, East End, Rotherhide, and the ship Mayflower. The third part will complete the tour to the North Sea, when we get to it.

JANE AUSTEN'S SENSE AND SENSIBILITY

ONLINE 301 S1

WEDNESDAYS, 10:50 A.M.-11:40 A.M.

Jane Austen novels make use of the marriage plot but yield a much richer array of topics and viewpoints when closely examined. Inside jokes, witty comments by witty characters and some laugh out loud moments reward discerning readers. Was Austen a social critic, a feminist, a satirist? Find out more about Austen's life, her time and her art by reading Sense and Sensibility closely.

GOALS-BASED INVESTING

ONLINE 402 S1

THURSDAYS, 1:40 P.M.- 2:55 P.M.

Teach students how to invest money based on their financial goals. The instruction stresses how to make investment decisions by creating a hierarchy of their essential, important and aspirational goals first. Then teaches how to select the appropriate investment mix (stocks, bonds, cash, etc.) once goals are determined. Most investors make decisions based on where they think they may make the most amount of money. This class corrects this thinking by demonstrating how to make investment decisions on their terms and not the markets' terms.

SPRING II 3/25 - 5/10

INTRODUCTION TO EAST ASIAN PAINTING

MAIN CAMPUS 202 S2

TUESDAYS, 10:50 A.M.-12:05 P.M.

East Asian Painting, known as Sumi-e or “Black Ink Painting” is an art form originating in China more than 2000 years ago. Created on various kinds of rice paper using black ink, watercolors, and specialized bamboo brushes, this art form emphasizes the creation of images that capture the spirit of an object. Beginning students learn the basic brush strokes by mastering the “Four Gentleman”: bamboo, plum blossom, chrysanthemum and orchid. Class will consist of a demonstration of the painting of one of the Four Gentleman which students will then copy in class under supervision of the instructor. The instructor will also offer feedback on any homework. A list of materials (paper, brushes, ink and suggested watercolor set) will be provided prior to class which students can readily purchase online or in certain local art supply stores.

SPRING II 3/25 - 5/10

OPERA: THE GLORIOUS ART

MAIN CAMPUS 203 S2

TUESDAYS, 10:50 A.M.- 12:05 P.M.

Short poems will allow for closer and more accessible examination of poems by (to name a few): Frost, Dickinson, Auden, Yeats, Keats, Byron, Tennyson, Whitman, Melville, Richard Wilbur and other more modern poets.

THE BRICKLAYERS

ONLINE 206 S2

TUESDAYS, 12:15 P.M.-1:05 P.M.

Not construction workers, these bricklayers are the rhythm drummers of rock. No fancy runs or solos, just solid foundation backbeat players that keep the band humming along. Who are they? Think Charlie Watts, Ringo Starr, and others. *Note: This class occurs for three weeks.*

THE RIVER THAMES

ONLINE 300 S2

WEDNESDAYS, 9:25 A.M.-10:15 A.M.

This final part of the course on The River Thames will continue eastward as if walking on the Thames Path, stopping at points of interest along the way such as Rotherhide, the East End, the Millennium Dome, Mudlarking, Thames Barrier, Dartford, South End, Whitstable, Margate, and the North Sea.
